

GROUP 15 PRESENTS

S.T.E.V.I.E

***Semi-auTonomous Emergency Vehicle
for Inhospitable Environments***

KEY FEATURES

- Robust ASA & PLA frame, to ensure operation in dangerous environments.
- Custom circuit board
- High Visibility colour design to aid in identification.
- Lightweight yet condensed ensures durability.
- Versatile sensor suite, armed with sonar and visual detectors.

Capabilities

Powerful terrain traversal
Reliable object interaction
Autonomous operation
Mapping capabilities
